Anvils & workshop tools

PRODUCT CATALOG / JASON TOOLS

Jason Tools manufactures anvils, clamps, and vises in Laizhou, Shandong, China. Founded in 2005. OEM and ODM services are available.

Iron anvils

Blacksmith's anvils in metric and pound models. Catalogued net weights range from 0.45 to 200 kg.

Steel anvils

Single-horn and double-horn models. Double-horn net weights range from 2.5 to 100 kg. Both series are listed at HRC 50 or higher.

Models pictured

20 kg iron anvil and 10 kg double-horn steel anvil. See the online product pages for model dimensions and additional photos.

Clamps & vises

WORKHOLDING TOOLS / PURCHASING INFORMATION

Clamps

Pipe clamps, F-clamps, and woodworking clamps. The upright pipe clamp fits nominal 3/4-inch pipe (26 mm outside diameter) and weighs 1.1 kg net.

Vises

Bench, table, and machine vises. The catalog includes dual-jaw multipurpose, tilting, and drill press models.
